SBC's Development View is subject to change and is not binding on SBC. SBC's Development View reflects SBC's intent to modify or enhance the OSS offered by SBC, as of the time that the view was prepared. Facts and circumstances upon which the View is based (e.g., CLEC demands, regulatory obligations) may change over time. Accordingly, SBC reserves the right to modify the View, in its sole discretion.

In addition, SBC is sharing its Development View with CLECs in an effort to encourage meaningful discussions between SBC and CLECs regarding SBC's perception of their needs or desires for future OSS modifications and enhancements. In some instances, such discussions may lead to changes in SBC's Development View

Because SBC's Development View is subject to change and is not binding on SBC, CLECs should not rely on the Development View. The official notices disseminated by SBC announcing anticipated OSS modifications and enhancements reflect SBC's actual plan.
