RE: Test Scenarios

cc: Trudi Seidl
Adam Gilbert

In addition to the test scenarios set forth in the draft master test plan and by AT&T, NEXTLINK would like to add the following test scenarios:

9-1-1

- order completion confirmation;
- check of correct routing for calls and usage;

OS/DA

- order completion confirmation;
- check of correct routing for calls and usage;

Caller Name and Number

- validation that correct customer information is passing through Caller ID;

End Office and Tandem Trunks

- timelines for order processing
