This Agreement shall be deemed effective on the 1st day of August, 2008, (the "Effective Date").

WHEREAS, SPRINT is authorized by the Federal Communications Commission ("FCC") to provide commercial mobile radio service ("CMRS") and provides such service to its end user customers, operating wireless affiliates and switch share/managed markets; and

WHEREAS, BLOOMINGDALE is an incumbent local exchange carrier and certified provider of local exchange service in the State of Michigan; and

WHEREAS, SPRINT terminates local telecommunications traffic that originates from BLOOMINGDALE's subscribers, and BLOOMINGDALE terminates local telecommunications traffic that originates from SPRINT's subscribers; and

WHEREAS, SPRINT provides a point of interconnection in BLOOMINGDALE's service areas, or interconnects with BLOOMINGDALE's network via a third party tandem switch; and

WHEREAS, the Parties wish to establish a reciprocal compensation interconnection arrangement that compensates each other for terminating local telecommunications traffic that originates on the other Party's network.

NOW, THEREFORE, IN CONSIDERATION of the covenants contained herein, the Parties hereby agree as follows:

1. DEFINITIONS.

Any term used in this Agreement that is not specifically defined herein shall have the definitions assigned to it (if any) in the Act. Any term used in this Agreement that is not defined herein or in the Act shall be interpreted in light of its ordinary meaning and usage, including any special or technical meaning or usage which such term may have within the telecommunications industry. The following terms used in this Agreement shall have the meanings as specified below:

- 1.1. "Act" means the Communications Act of 1934, as amended.

- 1.3. "Central Office Switch" means a LEC switch used to provide Telecommunications Services, including, but not limited to:
 - 1.3.1. "End Office Switch" is a switch in which the subscriber station loops are terminated for connection to either lines or trunks. The subscriber receives terminating, switching, signaling, transmission, and related functions for a defined geographic area by means of an End Office Switch.
 - 1.3.2. "Remote End Office Switch" is a switch in which the subscriber station loops are terminated. The control equipment providing terminating, switching, signaling, transmission, and related functions would reside in a host office. Local switching capabilities may be resident in a Remote End Office Switch.
 - 1.3.3. "Host Office Switch" is a switch with centralized control over the functions of one or more Remote End Office Switches. A Host Office Switch can serve as an end office as well as providing services to other remote end offices requiring terminating, signaling, transmission, and related functions including local switching.
- 1.4. "Tandem Office Switch" is a switching system that establishes trunk-to-trunk connections. Local tandems switch calls from one end office to another within the same geographic area, and access tandems switch traffic from an end office to and from an Interexchange Carrier. A Tandem Office Switch can provide host office or end office switching functions as well as the tandem functions. A Central Office Switch may also be employed as a combination End Office/Tandem Office Switch.
- 1.5. "Commercial Mobile Radio Services" or "CMRS" means Commercial Mobile Radio Services as defined in 47 C.F.R. Part 20.
- 1.6. "Commission" means the Michigan Public Service Commission ("MPSC").

- 1.11. "Interconnection" is defined as the direct or indirect linking of two networks for the mutual exchange of traffic. This term does not include the transport and termination of traffic. (47 C.F.R. Section 51.5).
- 1.12. "Interconnection Facilities" are the facilities or combination of facilities, circuits, service arrangements, trunks, and trunk groups used to deliver telecommunications traffic between the BLOOMINGDALE switch and the Sprint PCS MSC. 17 U.S.C. § 20.3.

- 1.17. "Mobile Switching Center" or "MSC" is a switching facility that performs the switching for the routing of calls among its mobile subscribers and subscribers in other mobile or landline networks. The MSC is used to connect and switch trunk circuits within the wireless network and between the wireless network and the public switched network for wireless traffic by a CMRS provider.
- 1.18. "Non-Subject Telecommunications Traffic" – means all traffic that is not Subject Telecommunications Traffic as defined in Section 1.25 of this Agreement. Non-Subject Telecommunications Traffic includes traffic that is rated as Subject Telecommunications Traffic, based on the rate centers

associated with the originating and terminating numbers, but originates and terminates in different MTAs.

- 1.19. "NPA" or the "Number Plan Area" also referred to as an "area code" refers to the three-digit code which precedes the NXX in a dialing sequence and identifies the general calling area within the North American Numbering Plan scope to which a call is routed to (i.e., NPA/NXX-XXXX).
- 1.20. "NXX" means the three-digit code, which appears as the first three digits of a seven-digit telephone number within a valid NPA or area code.
- 1.21. "Party" means either BLOOMINGDALE or SPRINT, and "Parties" means BLOOMINGDALE and SPRINT.

- 1.24. "Reciprocal Compensation" means an arrangement between two carriers in which each receives compensation from the other carrier for the Transport and Termination on each carrier's network of Subject Telecommunications Traffic, as defined in Section 1.25 below, that originates on the network facilities of the other carrier.
- 1.25. "Subject Telecommunications Traffic" is defined for all purposes under this Agreement as Local Service Area traffic that (a) is originated by a customer of one Party on that Party's network, (b) terminates to a customer of the other Party on the other Party's network within the same Major Trading Area (MTA), and (c) may be handled pursuant to an approved interconnection agreement between the originating Party and a carrier which performs only a contractual transiting function for the originating Party in lieu of a direct connection between the Parties, provided that the service provided by SPRINT is a two-way mobile service. For purposes of determining originating and terminating points, the originating or terminating point for BLOOMINGDALE shall be the end office serving the calling or called party, and for SPRINT shall be the originating or terminating cell site location which services the calling or called party at the beginning of the call.

- 1.26. "Telecommunications" means the transmission, between or among points specified by the user, of information of the user's choosing, without change in the form or content of the information as sent and received.
- 1.27. "Telecommunications Carrier" means any provider of telecommunications services (as defined in the Act), except that such term does not include aggregators of telecommunications services (as defined in 47 U.S.C. Section 226(a)(2)).
- 1.28. "Termination" means the switching of Subject Telecommunications Traffic at the terminating carrier's End Office Switch, or equivalent facility, and delivery of such traffic to the called party.

- 1.30. "Transport" means the transmission and any necessary tandem switching of Subject Telecommunications Traffic subject to Section 251(b)(5) of the Act from the Point of Interconnection between the two carriers to the terminating carrier's End Office Switch that directly serves the called party, or equivalent facility provided by a carrier other than an incumbent LEC.

2. RURAL TELEPHONE COMPANY.

BLOOMINGDALE asserts that it is a "rural telephone company" as that term is defined in the Federal Communications Act of 1934, as amended, 47 U.S.C. 153 et seq. (the "Act"). BLOOMINGDALE further asserts that, pursuant to Section 251(f)(1) of the Act, BLOOMINGDALE is exempt from Section 251(c) of the Act. Accordingly, BLOOMINGDALE expressly reserves the right to assert its right to an exemption or waiver and modification of Section 251(c) of the Act, in response to other requests for interconnection by SPRINT or any other carrier.

3. SCOPE.

- 3.1. This Agreement is intended, inter alia, to describe and enable specific Interconnection and Reciprocal Compensation arrangements between the Parties. This Agreement does not obligate either Party to provide arrangements not specifically provided for herein.
- 3.2. This Agreement sets forth the terms, conditions, and rates under which the Parties agree to directly or indirectly interconnect the CMRS network of SPRINT and the ILEC network of BLOOMINGDALE for purposes of exchanging Local Service Area traffic, provided that the service provided

by SPRINT to its customer is a two-way mobile service as defined in 47 U.S.C. §153(27). SPRINT agrees that it will provide BLOOMINGDALE Sixty (60) days prior notice of its intent to launch fixed wireless services in BLOOMINGDALE's Local Service Area. Upon BLOOMINGDALE's receipt of such notice, the Parties agree to negotiate an appropriate agreement or an Amendment to this Agreement, which will address the exchange of such traffic.

- 3.3. SPRINT represents that it is a CMRS provider of telecommunications services to subscribers in MTA Number 5 (Michigan). SPRINT's NPA/NXXs are listed in Telcordia's Local Exchange Routing Guide ("LERG) under Operating Company Number ("OCN") 6232, 8452, and 6664 in the state of Michigan.
- 3.4. This Agreement is limited to BLOOMINGDALE's end user customers' traffic. BLOOMINGDALE's NPA/NXX(s) are listed in the LERG under OCN 0737, in the state of Michigan.
- 3.5. The Parties agree that dialing parity shall be provided in accordance with Section 251 (b)(3) of the Act. Both Parties shall comply with the dialing parity requirements of federal law.
- 3.6. Any amendment, modification, or supplement to this Agreement must be in writing and signed by an authorized employee of each Party.
- 3.7. When SPRINT connects indirectly with BLOOMINGDALE, SPRINT agrees to route traffic to BLOOMINGDALE through a mutually agreed third party tandem provider designated by the Parties.

4. SERVICE AGREEMENT.

This Agreement provides for interconnection and arrangements between the networks of BLOOMINGDALE and SPRINT to enable the exchange of telecommunications traffic. Routing of traffic shall be as described in this section, except that, alternatives may be employed in the event of emergency or temporary equipment failure.

- 4.1. The default Interconnection Point shall be at any appropriate tandem to which both Parties are connected, including any third-party Tandem Switch. Each Party shall be responsible for the cost of providing facilities from its network to the Interconnection Point for the traffic that Party originates. Either Party shall be allowed to establish a different Interconnection Point for the traffic which that Party originates, provided that the new Interconnection Point does not increase the cost of transporting or terminating traffic for the other Party.

- 4.2. Where SPRINT and other area ILECs have entered into or may enter into contractual arrangements for the delivery of SPRINT traffic to BLOOMINGDALE's network (i.e. traffic that is not covered elsewhere in this Agreement) for termination to BLOOMINGDALE's customers, BLOOMINGDALE will accept this traffic subject to compensation arrangement as outlined in Section 5 below.
- 4.3. Should the parties mutually agree to implement a direct interconnection trunk group, it will be provisioned between BLOOMINGDALE's End Office Switch and SPRINT's point of presence in the exchange, with the POI designated at BLOOMINGDALE's switch. This trunk group will be provisioned in connection with SPRINT's NPA/NXX(s) as listed in the LERG that are rate centered in BLOOMINGDALE's exchanges(s) or ELC exchange(s). Applicable charges for establishing and provisioning this trunk group are billed as described in 5.7.4 below.
 - 4.3.1. Landline-to-Wireless:
Local Service Area calls from BLOOMINGDALE customers to SPRINT customers shall be routed from BLOOMINGDALE's End Office Switch to SPRINT via the direct trunk group.
 - 4.3.2. Wireless-to-Landline:
Local Service Area calls originated by SPRINT's customers within MTA No. 5 (Michigan) or customers of another CMRS provider that has entered into roaming arrangement with SPRINT, while roaming in MTA No. 5, to BLOOMINGDALE's customers shall be routed from SPRINT's network via the direct trunk group to BLOOMINGDALE's End Office Switch for termination by BLOOMINGDALE to its customers, as appropriate.

5. COMPENSATION.

5.1. Traffic Subject to Reciprocal Compensation.

Reciprocal compensation is applicable for Transport and Termination of Subject Telecommunications Traffic as defined in Section 1.25 of this Agreement and is related to the exchange of traffic described in Section 3. For the purposes of billing compensation for Subject Telecommunications Traffic, billed minutes will be based upon actual usage recorded and/or records/reports provided by the transiting carrier. Measured usage begins when the terminating recording switch receives answer supervision from the called end-user and ends when the terminating recording switch receives or sends disconnect (release message) supervision, whichever occurs first. The measured usage is aggregated at the end of the measurement cycle and rounded to a whole minute. Billing for Subject Telecommunications Traffic shall be based on the aggregated measured

usage less traffic recorded as local that is Non-Subject Telecommunications Traffic

- 5.2. The rate for Reciprocal Compensation is listed in Attachment A.
- 5.3. The Parties agree to bill each other for Subject Telecommunications Traffic as described in this Agreement unless the Subject Telecommunications Traffic exchanged between the Parties is balanced and falls within an agreed upon threshold ("Traffic Balance Threshold"). The Parties agree that for purposes of this Agreement, the Traffic Balance Threshold is reached when the Subject Telecommunications Traffic exchanged, both directly and indirectly, falls between 52.5% / 47.5% in either the wireless-to-landline or landline-to-wireless direction. When the actual usage data for three (3) consecutive months indicates that the Subject Telecommunications Traffic exchanged, both directly and indirectly, falls within the Traffic Balance Threshold, then either Party may provide the other Party a written request, along with verifiable information supporting such request, to eliminate billing for Reciprocal Compensation per minute. Upon written consent by the Party receiving the request, there will be no billing for Reciprocal Compensation on a going forward basis unless otherwise agreed to by both Parties, in writing.
- 5.4. If the actual usage data for a three consecutive month period indicates that the Subject Telecommunications Traffic exchanged, both directly and indirectly, exceeds a 3:1 ratio of terminating to originating traffic, either Party may provide the other Party a written request, along with verifiable information supporting such request, to renegotiate reciprocal compensation rates. Upon a request from a Party to renegotiate, there will be no billing for Reciprocal Compensation on a going forward basis until an agreement is renegotiated between the Parties in writing
- 5.5. Under no circumstance will either Party be responsible for compensation for chat-line, conference calling traffic or other traffic pumping schemes used to produce excessive out of balance traffic volumes.
- 5.6. Traffic Subject to Switched Access Compensation.
 - 5.6.1. Parties agree that certain traffic rated and recorded as Subject Telecommunications Traffic, may originate or terminate in another MTA, and therefore is Non-Subject Telecommunications Traffic and subject to Switched Access Compensation.
 - 5.6.2. Switched Access Compensation is applicable to traffic delivered by SPRINT to BLOOMINGDALE that originates in another MTA; to the extent that such traffic is not handed off to an IXC pursuant

to Section 5.7.3. SPRINT shall compensate BLOOMINGDALE at BLOOMINGDALE's Switched Access rates set forth in BLOOMINGDALE's MECA MPSC Tariff 25 for all such traffic.

5.7. Calculation of Payments and Billing.

- 5.7.1. BLOOMINGDALE shall compensate SPRINT for Subject Telecommunications Traffic that is delivered by BLOOMINGDALE to SPRINT, as prescribed in Section 3.1 and at the rate provided in Attachment A. SPRINT will compensate BLOOMINGDALE for Subject Telecommunications Traffic delivered to BLOOMINGDALE for termination to its customers, as prescribed in Sections 3.1 and 3.2, as applicable and at the rate provided in Attachment A and for Access Traffic exchanged between SPRINT & BLOOMINGDALE, as prescribed and at the rates provided in Section 5.6.2.
- 5.7.2. SPRINT shall prepare a monthly billing statement to BLOOMINGDALE, reflecting the calculation of Reciprocal Compensation due SPRINT. BLOOMINGDALE shall prepare a monthly billing statement to SPRINT, which will separately reflect the calculation of Reciprocal Compensation, Switched Access Compensation, and total compensation due BLOOMINGDALE.
- 5.7.3. Recognizing that BLOOMINGDALE has no way of measuring the Non-Subject Telecommunications Traffic, in the event that SPRINT does not track the usage information required to identify the Non-Subject Telecommunications Traffic originated or terminated by BLOOMINGDALE, Parties agree to a default factor of 2% as an estimate of Non-Subject Telecommunications Traffic. The actual recorded usage shall be the basis for billing, when available and verifiable.
- 5.7.4. Dedicated interconnection facilities used for two-way traffic exchange between the Parties may be mutually agreed upon and the monthly charges for such facilities shall be shared based on each Party's proportion of originating Subject Telecommunications Traffic to total Subject Telecommunications Traffic exchanged between the Parties, in accordance with this Agreement.
- 5.7.5. For the purposes of billing compensation for Subject Telecommunications Traffic, billed minutes will be based upon actual usage data or records/reports provided by the transiting carrier. If actual usage data or records/reports provided by the transiting carrier are not available to determine the amount of Subject Telecommunications Traffic exchanged between the

Parties, then the average based upon the most recent consecutive three (3) months for which actual usage data is available will be used.

5.7.6. The Parties agree that disputed and undisputed amounts due under this Agreement shall be handled as follows:

5.7.6.1. If any portion of an amount due to a Party (the "Billing Party") under this Agreement is subject to a bona fide dispute between the Parties, the Party billed (the "Billed Party") shall, within thirty (30) days of its receipt of the invoice containing such disputed amount, give written notice to the Billing Party of the amounts it disputes ("Disputed Amounts") and include in such notice the specific details and reasons for disputing each item. The Billed Party shall pay within forty five (45) days of receipt on an invoice, all undisputed amounts to the Billing Party. The Parties will work together in good faith to resolve issues relating to the disputed amounts. If the dispute cannot be resolved within thirty (30) days of receipt of the notice of dispute, the Parties will follow the Dispute Resolution Procedures outlined in Section 27. If the dispute is resolved such that payment is required, the Billed Party shall pay the disputed amounts with interest at the rate of one and one-half percent (1-112%) per month. In addition, the Billing Party may cease terminating traffic for the Billed Party after undisputed amounts not paid become more than 90 days past due, provided the Billing Party gives 45 days' written notice and opportunity to cure the default prior to terminating service.

5.7.6.2. Any undisputed amounts not paid when due shall accrue interest from the date such amounts were due at the rate of one and one-half percent (1-112%) per month.

5.7.6.3. Undisputed amounts shall be paid within forty five days of receipt of the invoice.

6. AUDITS.

6.1. Either Party may conduct an audit of the other Party's books and records pertaining to the services provided under this Agreement no more than once per twelve (12) month period to evaluate the other Party's accuracy of billing records and invoicing in accordance with this Agreement. Any

audit shall be performed as follows: (a) following at least thirty (30) business days prior written notice to the audited Party, (b) subject to the reasonable scheduling requirements and limitations of the audited Party, (c) at the auditing Party's sole expense, (d) of a reasonable scope and duration, (e) in a manner so as not to interfere with the audited Party's business operations, and (f) in compliance with the audited Party's security rules.

- 6.2. Each Party may request copies of the billing records thereof provided that the requested records do not exceed 12 months in age from the date the monthly bill containing said record information was issued.

7. RESOLUTION.

If either Party causes an Impairment of Service, the Party whose network or service is being impaired (the "Impaired Party") shall promptly notify the Party causing the impairment (the "Impairing Party") of the nature and location of the problem and that, unless promptly rectified, a temporary discontinuance of the use of any circuit, facility or equipment may be required. The Impairing Party and the Impaired Party agree to work together to attempt to promptly resolve any impairment. If the Impairing Party is unable to promptly remedy impairment, then the Impaired Party may at its option temporarily discontinue the use of the affected circuit, facility or equipment until such impairment is remedied

8. GENERAL RESPONSIBILITIES OF THE PARTIES.

- 8.1. Each Party is individually responsible to provide facilities within its network which are necessary for routing, transporting and, consistent with Section 4, measuring and billing traffic from the other Party's network and for delivering such traffic to the other Party's network in an acceptable industry standard format, and to terminate the traffic it receives in that acceptable industry standard format to the proper address on its network.
- 8.2. The Parties are each solely responsible for participation in and compliance with national network plans, including The National Network Security Plan and The Emergency Preparedness Plan. Neither Party shall use any of the services provided in this Agreement in any manner that impairs or destroys the normal quality of service to either Party's customers, and subject to prior written notice and a reasonable opportunity of the offending Party to cure any violation, either Party may discontinue or refuse service if the other Party violates this provision.
- 8.3. Each Party is solely responsible for the services it provides to its customers and to other Telecommunications Carriers.
- 8.4. Each Party is responsible for managing NXX codes assigned to it.

- 8.5. Each Party is responsible for obtaining Local Exchange Routing Guide ("LERG") listings of the Common Language Location Identifier ("CLLI") assigned to its switches.
- 8.6. SS7 Out of Band Signaling (CCS/SS7) shall be the signaling of choice for interconnecting trunks where technically feasible for both Parties. Use of a third-party provider of SS7 trunks for connecting SPRINT to the BLOOMINGDALE SS7 systems is permitted. Such connections will meet generally accepted industry technical standards.

- 10.2. Before either Party reports a trouble condition, it must first use its reasonable efforts to isolate the trouble to the other Party's facilities, service, and connection. Each Party will advise the other of any critical nature of the inoperative facilities, service, and connection and any need for expedited clearance of trouble. In cases where a Party has indicated the essential or critical need for restoration of the facilities, services or
