

Emerging Technologies Team
June 27, 2006 Meeting Minutes
2:30 – 4:00 p.m.

Sign-in Sheet circulated to attendees. Round table introductions for any new participants present. Review of meeting issues and work products developed to date. Outline of deliverables and format/assignments to date.

Participants included;

David Lakso, COBASYS (by teleconference)
Jim Ault, MEGA (by teleconference)
Ryan Waddington, NextEnergy
Adella Crozier, DTE
Grady Nance, DTE
Steve Paytash, MPSC
George Stojic, MPSC
Pat Poli, MPSC
Gerald Wyse, Consumers Energy

All the various ET assignments were discussed in terms of status of the data gathering for the ET characterization table. Ryan indicated there will be various Straw man Proposals sent out from MPSC to all 21st CEP participants for feedback (due by August 21)

Steve Kulesia asked if David Lakso could provide some generic information relating to Advanced Battery Storage Technologies and send it to him in an e-mail. SmartGrid Technologies information is being handled through that SubTeam. All data and narrative write-ups will be submitted by August 15th

Gerald Wyse indicated helping out on the Interconnection Issues. Grady Nance suggested that we need to somehow brainstorm on all the issues relating to the DG market, with input from a variety of stakeholders in this area.

Ryan Waddington suggested that we have this brainstorming session at our next ET Team meeting. This will mainly focus on Section IV Potential Impacts and Section V – Adoption Issues. Section VI Policy Recommendations will be addressed in the Joint Policy Team “Strawman Proposal on DR”. Feedback will be needed from all participants with respect to these Strawman Proposals.

The next meeting of the ET Team will be scheduled for August 9th concurrent with Alternative Technology Workgroup meeting (rescheduled for 9:00 am) followed by an August 17th teleconference to review the status of the draft sections.
