

Emerging Technologies Team  
June 26 2006 Meeting Minutes  
10:00 am – Noon

Sign-in Sheet circulated to attendees. Round table introductions for any new participants present. Review of meeting issues and work products developed to date. Outline of deliverables and format/assignments to date.

Overview/confirmation of Team assignments for individual DG and Battery Storage Technologies;

- 1) Fuel Cell Technologies – Ryan Waddington, Joe Funyak, George Hayden and Dave Ellis
- 2) Reciprocating Engines – Grady Nance, DTE
- 3) Stirling Engines – Ryan Waddington and Mark Beyer (Peake Marketing)
- 3) SmartGrid Technologies – Steve Paytash, Jim Beaubien and Steve Kulesia
- 4) Micro-turbines/Combustion Turbines – Mike Serafin, DTE
- 5) Advanced Storage – Gary Westerhelm, Windstor, David Lakso, CobaSys
- 6) Reciprocating Engines – Grady Nance, DTE

**The various technologies being reviewed/analyzed for this Characterization Table need to be input into the table by July 11, 2006. MPSC will send out the characterization table (in Word format) in order to insert the appropriate data for each technology (see assignment list above). PLEASE NOTE: All data sources need to be referenced in order to include it into the report.**

Review of ET Team Report Outline: Suggestion was made to add “Market Forecast” to the IV Section of the draft report. Formatting approach was discussed in terms of how to best breakout the various technologies reviewed. This could be accomplished by listing out each individual technology in Section III?

Steve Paytash brought up concerns about how the report/data from the Smart Grid Sub-Team will interface and be integrated into the ET Team Report (or will it be a “stand alone” report? The question will be discussed and a decision made in the near future on this matter.

Next Sub-group meeting will be held on July 27<sup>th</sup> in the afternoon at MPSC offices (2:30 – 4:00 pm)

Presentation was given by David Lakso, Cobasys, Inc. on NIMH battery systems. This was not a planned event, but an impromptu presentation for the benefit of the participants.

**Note to Pat Poli: Please add Richard Sequin, DTE Energy, 313-235-9598, e-mail [sequin@dteenergy.com](mailto:sequin@dteenergy.com) and Martin Dober, MEDC, 517-335-7496, e-mail [doberm@michigan.gov](mailto:doberm@michigan.gov)**
