

**CNF Update – Baseload Option Review**  
**Agenda for May 18, 2006**

**Teleconference information**

**Dial in: 866.628.8006**

**Passcode: 998.4261 #**

1. Review of CNF modeling and findings.
2. Estimated capacity needed for the transmission regions – ITC (SE Michigan), METC (balance of the Lower Peninsula), and ATC (Upper Peninsula).
3. What type of baseload should be looked at per region?
4. Details development – costs, environmental, etc.
5. Follow-up items and next meeting date.
