Dear Technical Forum Participants: The next EPA-sponsored Clean Energy-Environment Technical Forum will be Mon., June 19th at 3:30 Eastern Time to discuss the current state of Integrated Gasification Combined Cycle (IGCC) technology and carbon capture and sequestration. Please mark your calendars and we will forward the agenda and background materials in June. Also please note an upcoming workshop on IGCC for state officials sponsored by the Gasification Technologies Council. The following excerpt and additional information is available at the GTC website:

<http://www.gasification.org/news/2006.htm#2006-WS>) The Gasification Technologies Council is hosting a workshop for State government personnel on June 28-29, 2006 in Bismarck, ND. Download the latest program for more information on speakers and topics. The purpose of the workshop is to provide timely, credible information to State government employees with an interest in learning more about gasification and its downstream applications. Regards, Catherine A. Morris, Director Energy Practice Group The Keystone Center 1730 Rhode Island Ave., NW; Suite 509 Washington, DC 20036 202.452-1590
