- Resources for energy efficiency education

Promotional Partners

Rebuild Michigan - Program
Overview

Energy Office Funding Opportunities

- Workshop and EE Event Incentives
- Energy Star Label Incentive
- New Community Partnership Opportunities – to assist public & private commercial customers
- TEA Incentives for Local Government Buildings

Workshop or Event Funding Opportunity

- To create awareness about newer energy efficient technology for commercial buildings,
- Public entities and non-profit organizations are eligible to apply
- Target audience should be from the Rebuild Michigan customer groups
- Up to \$2,500 for event costs
- First come, first served until September 1, 2006

Energy Star Incentives

- A financial incentive for achieving the Energy Star Building Label
- Any Michigan public school, college, university, or local government
- The incentive will cover 50% of the professional engineer's fee up to \$1000
- First come, first served
- A limit of 10 incentives per organization

Community Partnerships

- Are becoming outreach centers for energy efficiency in their defined community. Grants are available.
- Access resources from DOE/Rebuild America, state Rebuild MI program, Regional Application Center, and NREL.
- Improve the efficiency of their own and other Community buildings.

TEA Incentives

- Available to Local Governments
- First come, first served until September 30, 2006
- Covers 50% of TEA cost per building, maximum of \$5,000 per building, in up to 3 buildings.
- Must be enrolled in Rebuild Michigan, and have received an IEE from the Energy Office.

Summary

- Rebuild Michigan is one of several EE resources available through the state
- Financing an Energy Saving project is not difficult or costly
- Saving energy benefits communities, building, occupants, budgets and the environment!
