

STATISTICAL DATA REPORTING FORM

For Calendar Year ending:

This form is required to be filed annually*, on a calendar year basis, by all alternative electric suppliers providing electric generation service to retail customers in Michigan. Revenue and price information should be for power sales only.**

Name:

Address:

FERC authorization Number:

<u>Customer Class</u>	<u>Number of Customers</u>	<u>Sales (Mwh's)</u>	<u>----- Revenue -----</u>		<u>- Weighted Average Price (Kwh) -</u>	
			<u>Total</u>	<u>Without T&D and Ancillary Services*</u>	<u>Total</u>	<u>Without T&D and Ancillary Services*</u>
Residential -						
Small Secondary - (less than 20 Kw's of demand)						
Large Secondary/Primary: (more than 20 Kw's of demand)						
Less than 1 Mw -						
More than 1 Mw -						
Annual Total -						

* This form must be filed by March 1 following the reporting year.

** This column should include only the price of power charged to the retail customers. It should exclude transmission costs, distribution costs, and the cost of Ancillary services if any of these costs are included in the total column. Ancillary services are defined in Consumers Energy and Detroit Edison's open access tariffs and consist of the following:

- Scheduling, System Control and Dispatch Service
- Reactive Supply and Voltage Control from Generation Sources
- Regulation and Frequency Response Service
- Energy Imbalance Service, including Imbalances outside the Deviation Band
- Operating Reserve - Spinning Reserve Service
- Operating Reserve - Supplemental Reserve Service

Attach any quarterly transactions reports covering power purchases at market based rates made to the Federal Energy Regulatory Commission during this reporting year.
